€180.00 excl. VAT (21%)

Description

Introducing the SONOS Era 100, an advanced speaker that transforms any space with perfectly tuned stereo sound and the rich bass your music deserves. With its next-generation acoustic design and new connectivity options, the Era 100 elevates your listening experience.

With just one press of a button, you, your family, and friends can stream directly from a paired Bluetooth device, allowing you to enjoy high-quality audio without interruptions from calls or notifications. Connect a turntable, computer, or other audio source using an AUX cable and the SONOS line-in adapter to further enhance your listening experience.

Setting up the SONOS Era 100 is quick and easy. Plug it in, connect your phone or tablet to Wi-Fi, and open the SONOS app. Once your system is set up, discover free music, original content, and thousands of radio stations from around the world with SONOS Radio, available directly in the SONOS app.

To ensure your content sounds as intended, the SONOS Era 100 features Trueplay tuning technology. With just one tap in the SONOS app, Trueplay analyzes the unique acoustics of your space and optimizes the speaker's EQ, delivering an unparalleled audio experience tailored to your environment.
